## From the Owner

HELLO & NAMASTEE,

I have been preparing my spareribs myself for years according to an authentic recipe. The basic is my delicious homemade marination. After all the spices and marination have been thoroughly absorbed into the meat, the spareribs are cooked low & slow. The result is deliciously juicy and buttery-soft meat that falls right off the bone. The finishing touch is the glaze, prepared according to a secret recipe before they are served.

## Why Ribs n More
